

Company overview

New Vision Global Cross-Border Solutions Inc. supports Chinese and Asian business owners and cross-border enterprises with business consulting, market research and coordinated corporate support.

We connect client needs with the requirements of banks and local professional providers, helping organize information, coordinate documentation and follow up on agreed work.

INCORPORATION

Colorado, United States

INCORPORATED

16 August 2024

COORDINATION

Mainland China

Core service areas

01 Business Consulting & Market Research

Business needs assessment, service and banking information research, requirements comparisons and project preparation.

02 Overseas Company Formation

Local professional provider liaison, formation information and document coordination, and project milestone follow-up.

03 Banking Coordination & Client Introductions

Banking needs assessment, client introductions, application information preparation and communication with banking teams.

04 Ongoing Corporate Services Coordination

Coordination of company maintenance, secretarial, accounting and tax-related requests with responsible local professionals.

SERVICE COVERAGE

Hong Kong | United States | Singapore | Japan | British Virgin Islands | Cayman Islands | United Kingdom

Banking collaboration

We welcome discussions with banking teams about suitable client profiles, onboarding requirements and a clear way to prepare potential introductions.

CLIENT CONTEXT

Chinese and Asian business owners and cross-border enterprises, including U.S. and overseas entities. Client types may include trade, e-commerce, technology and consulting businesses, subject to the receiving bank's criteria.

INFORMATION WE HELP ORGANIZE

Entity jurisdiction and ownership; business activities and markets; account purpose; funding background; expected payment locations and activity; company and business supporting documents.

Preparation and responsibilities

We clarify bank criteria, help organize client-provided facts, check document completeness and information consistency, and coordinate subsequent questions, appointments and follow-up. Each financial institution conducts its own due diligence, determines client acceptance and independently provides banking services.

Engagement and delivery model

Most engagements are contracted through service companies in mainland China or Hong Kong, with some contracted by the U.S. company. Most service delivery and project coordination take place in mainland China. The contracting entity, scope, responsibilities and fee arrangements are specified in the engagement agreement.

Relevant company formation, secretarial, accounting and tax work is coordinated with local providers holding the qualifications required for the task.
